19" LCD Rack Monitors
# Eight of many benefits

TELETEST
BROADCAST TECHNOLOGY

1 HIGH DEFINITION COMPATIBILITY

All PAL / NTSC Teletest LCD racks are compatible with the High Definition CVBS outputs on HDSDI cameras and recorders.
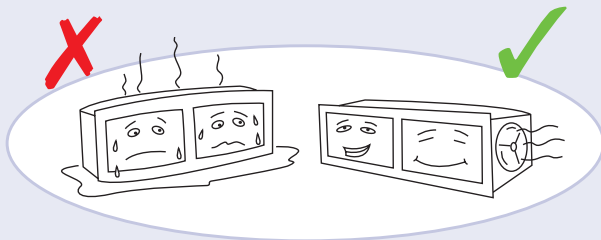

HD-SDI

2 RELIABLE

Teletest LCD racks are soak tested for 48hrs before packing; they're guaranteed to work on arrival.
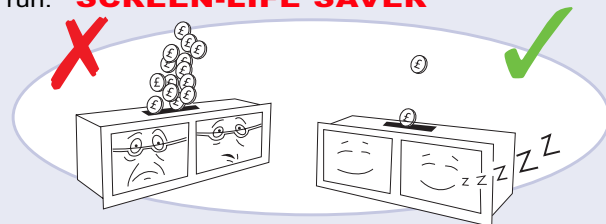

3 AUTO-COOL FANS

Teletest LCD racks have a "whisper-quiet" automatic fan that comes on at a temperature you specify.
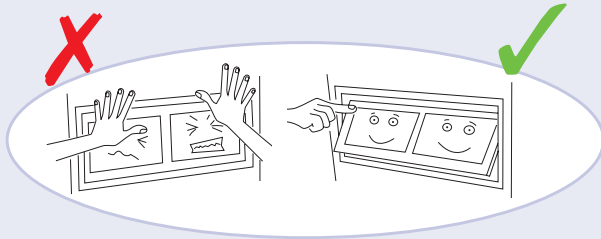

4 LOWER RUNNING COSTS

Teletest LCD racks go into standby after a time you specify when there are no video signals present; the screen's life will be saved & they'll cost a lot less to run. **"SCREEN-LIFE SAVER"**
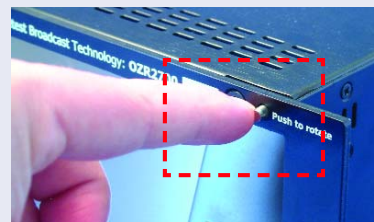

5 "EASY-TILT" SCREENS

Teletest LCD screens rotate inside the LCD rack's body; the angle of view can be adjusted with ease.

6 ROTATION LOCK

Teletest LCD racks have a simple locking mechanism that will keep the screens at the angle of view you want.

Push to rotate

7 DESIGNATION STRIPS

Teletest LCD racks have professional designation strips which can be re-used many times. This also lets you print out screen IDs using a PC.

8 REAR MOUNTED PSU
